

QGIS Application - Bug report #1257

graticule creator: don't assume 0 interval avoid avoid a freeze

2008-08-30 05:35 AM - Maciej Sieczka -

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: C++ Plugins	
Affected QGIS version:	Regression?: No
Operating System: All	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 11317
Description	
If one fails to specify the interval, the plugin assumes 0 it seems and tries to do it's job, which takes ages and technically freezes QGIS.	
Please grey-out the "OK" button unless non-0 intervals are provided (and possibly if the distance between the BL and TR corners is >0).
