

QGIS Application - Bug report #1265

QgsVectorFileWriter() throws error by columns of type timestamp

2008-09-01 01:24 AM - Horst Düster

Status: Closed	
Priority: Low

Category: Vectors	
Affected QGIS version:	Regression?: No
Operating System: All	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 11325

Description

The `[[QgsVectorFileWriter]]()`-Method throws an error when a `[[PostGIS]]`-Layer contains columns of type timestamp. Type timestamp is a very useful datatype. This limitation shouldn't exist. I know that not all vector file formats, especially DBF, don't support this datatype. A feasible solution could be to cast this type to character strings.

History

#1 - 2008-10-07 03:02 AM - Tim Sutton

- Resolution set to fixed
- Status changed from Open to Closed

We can no longer replicate this in trunk. Closing bug.

#2 - 2009-08-22 12:57 AM - Anonymous
