

QGIS Application - Bug report #12665
pyodbc DLL issue in 32-bit standalone

2015-04-28 08:10 AM - Gary Sherman

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Build/Install	
Affected QGIS version:	2.8.1	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: up/downstream
Crashes QGIS or corrupts data:	No	Copied to github as #: 20773
Description pyodbc distributed with the 32-bit Windows standalone version fails to load. This appears to be related to the way it was built against msvc90.dll? This issue doesn't occur on the 64-bit standalone or using the OSGeo4W Network installer: Python Console Use iface to access QGIS API interface or Type help(iface) for more info >>> import pyodbc Traceback (most recent call last): File "<input>", line 1, in <module> File "C:/QGIS_W~1/apps/qgis/.python\qgis\utils.py", line 478, in _import mod = _builtin_import(name, globals, locals, fromlist, level) ImportError: DLL load failed: The specified module could not be found.
