

QGIS Application - Bug report #12718

Constant reload of map when reducing window size

2015-05-08 01:26 AM - Mo Scott

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:	Ubuntu	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 20821
Description		
<p>Under Ubuntu Laptop when you resize the QGis-Window under a certain extend (but latest at half-window-view) the map-overview and part of the toolbars constantly reloads. QGis is then no longer usable meaning the user has to keep it over a certain extend.</p> <p>VERY annoying</p>		

History
