

QGIS Application - Feature request #12720

Select -all- OSM topology to spatial Lite

2015-05-08 01:43 AM - Mo Scott

Status:	Rejected		
Priority:	Normal		
Assignee:			
Category:			
Pull Request or Patch supplied:	No	Resolution:	duplicate
Easy fix?:	No	Copied to github as #:	20823
Description			
Vector -> Open Street Map -> Topology to spatial Lite			
it would be great if there was a button for "select ALL tags" ("select No tag") so when you have a big dataset and you want to get an overview, select them by yourself afterwards or export them to .shp you can just quick get ALL the data without having to select them all manually			
Thank you to the person that could add this!
