- Category changed from Edit widget to Digitising
- Status changed from Open to Feedback

Cannot confirm on qgis master on Linux.

#2 - 2015-05-12 11:50 PM - Christophe Damour

Giving it another try, I can only reproduce it when I delete the last vertex of the last part of the MultiLineString.

I tested also this scenario, no crash on QGIS master/Linux.

#4 - 2015-05-24 03:23 AM - Christophe Damour

Testing it further on Ubuntu QGIS 2.8.2 with fresh PostGIS vector layers, I couldn't reproduce the crash...
So it might be related to my vector layer. I'll check it soon and let you know.

#5 - 2015-05-24 03:49 AM - Giovanni Manghi

- Resolution set to not reproducible
- Status changed from Feedback to Closed

reopen if necessary.
