<b>Description</b>	
As in subject:  the label option "FirstCap" return a label always ALL-Uppercase. Instead it should return Upper the first letter and lower all the others.  I see this issue on qgis 2.8.2 32bit (windows)

duplicate of #7611

##### #2 - 2015-05-22 01:10 AM - aperi2007 -

- Status changed from Closed to Reopened

No, it is not a duplicate of other ticket.

In the ther ticket it was proposed a workaround at program level .

This is not possible to apply to the interface level.

Also the question is that is wrong the functionality.

Infact the FirstCap, dont mean put the first Upper and leave the other unchanged.

But instead mean Put only the first up and all the other should be lower.

- Status changed from Reopened to Feedback

*In fact the FirstCap, don't mean put the first Upper and leave the other unchanged.  
But instead mean Put only the first up and all the other should be lower.*

that is exactly what #7611 is about. Please leave feedback.
