QGIS Application - Feature request #12871
Processing: Add InVEST

2015-06-04 01:07 AM - Filipe Dias

Status:	Closed		
Priority:	Normal		
Assignee:	Victor Olaya		
Category:	Processing/Core		
Pull Request or Patch supplied:	No	**Resolution:**	wontfix
Easy fix?:	No	**Copied to github as #:**	20962

Description

Integrated Valuation of Ecosystem Services and Tradeoffs (InVEST) is a free and open-source software suite to inform and improve natural resource management and investment decisions. InVEST quantifies, maps, and values the goods and services from nature that contribute to sustaining and fulfilling human life.

InVEST's modular toolset enables users to quantify, visualize and compare the delivery of key ecosystem services under different scenarios of land, water, and marine uses. Outputs describe natural resources in terms of their biophysical supply, the service they provide humans, or their projected socioeconomic value. These outputs provide a framework for governments, corporations, development banks, conservation organizations and other decision makers to evaluate the impacts of their decisions on the environment and on human well-being.

History

#1 - 2015-06-07 04:05 AM - Giovanni Manghi

- Category changed from 94 to Processing/Core

#2 - 2017-05-01 12:47 AM - Giovanni Manghi

- Easy fix? set to No

#3 - 2017-06-29 08:57 AM - Nyall Dawson

- Resolution set to wontfix

- Status changed from Open to Closed

- Description updated

I think this report should be closed - we're moving away from including providers by default and leaving their implementation to plugin authors. Therefore this needs to be fixed by someone willing to develop a plugin, not within QGIS itself.
