

QGIS Application - Bug report #12907

Add a line in the modeler between a vector layer parameter and a table field parameter.

2015-06-08 02:49 AM - Etienne Trimaille

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Processing/Modeller	
Affected QGIS version:	2.8.2	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 20997
Description		
<p>When you create a table field parameter in the modeler, you need to define which vector layer parameter you will use.</p> <p>But then, on the drawing, we can't see any link between these two parameters.</p> <p>Is-it possible to add a line between these two parameters ?</p>
