I cannot reproduce this with the newest svn version (tested with Qt 4.3.4 and 4.4.1). Is there anything I have to do in addition to the three steps to get a duplicated legend?

#2 - 2008-09-07 04:16 AM - Marco Hugentobler

I found and fixed (in commit:ca0eb5c5 (SVN r9278)) a problem where the classification items have been duplicated after pressing 'update'. Was this what you meant?

#3 - 2008-09-07 11:52 PM - Horst Düster

- Resolution set to fixed

- Status changed from Open to Closed

in commit:911038bb (SVN r9282) it seems to be solved. I close this ticket. Many thanx to Marco!
