

QGIS Application - Bug report #12927

Installazione terminata con un errore

2015-06-10 12:15 AM - Paolo Orlandi

Status: Closed	
Priority: Normal	
Assignee: Paolo Cavallini	
Category:	
Affected QGIS version: 2.8.2	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: invalid
Crashes QGIS or corrupts data: No	Copied to github as #: 21009

Description

Buongiorno,

ho provato ad installare qgis 2.8.2 sul mio pc.

Sistema operativo windows 7 32 bit

Alla fine dell'installazione esce una finestra con il seguente messaggio d'errore

Impossibile caricare il plugin qgiscloud a causa di un errore chiamando il metodo classFactory()

Traceback (most recent call last):

u'C:/Users/Orlandi_Paolo/.qgis2/python']
```

Chiudendo tale finestra d'errore, il caricamento prosegue e si completa
Non so però se possa dare origine a ulteriori problematiche durante l'uso di QGIS

Come posso risolvere?
Grazie

History

#1 - 2015-06-10 07:37 AM - Giovanni Manghi

- Resolution set to invalid
- Status changed from Open to Closed

Hi, the error is thrown by a 3rd party plugin (qgis cloud) not qgis itself. Note: issues here must be filed in english.
