QGIS Application - Bug report #13011 CRS not ok between switching between projects with different crs

2015-06-20 12:56 AM - Richard Duivenvoorde

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Projection Support			
Affected QGIS	version:2.8.2	Regression?:	No	
Operating System:		Easy fix?:	No	
Pull Request or Patch supplied:		Resolution:		
Crashes QGIS or corru pts data:		Copied to github a	Copied to github as #: 21087	
Description				
checking after a	n email of Paolo on the list:			
https://lists.osge	o.org/pipermail/qgis-developer/2015-	June/038236.html		
Did some testing	, and partly confirmed here, but hard	to reproduce.		
Sometimes the p	project crs is taken over (switching bet	ween a 28992 and 4326 project) ar	nd sometimes it stays 28992 then, and	
-	project crs is taken over (switching bet ows the right crs	tween a 28992 and 4326 project) ar	nd sometimes it stays 28992 then, and	
-		tween a 28992 and 4326 project) ar	nd sometimes it stays 28992 then, and	
sometimes it foll Would be good t	ows the right crs o have a more reproducable scenario	, but starting with a fresh config (c	onfigpath /tmp/foo) create a 4326 project, then

invalidate first crs on project load (fixes #13011)

Revision 4d1d2ffc - 2015-06-30 01:49 PM - Jürgen Fischer

invalidate first crs on project load (fixes #13011)

(cherry picked from commit fd4b38c55a368d7a04888d785fc873ca86528150)

History

#1 - 2015-06-20 01:00 AM - Paolo Cavallini

Thanks Richard for testing. I can reproduce it by following the Training manual Processing exercises, loading one project after the other.

#2 - 2015-06-23 06:35 AM - Jürgen Fischer

- Status changed from Open to Closed

Fixed in changeset commit:"fd4b38c55a368d7a04888d785fc873ca86528150".
