QGIS Application - Bug report #13012
labelling: drop shadow draws over character when the label placement is set to follow curves

2015-06-20 02:24 AM - Mathieu Pellerin - nIRV

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Labelling		
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	end of life
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	21088

Description

When drop shadow is enabled, and the label placement is set to curved, the drop shadow effect is drawn over characters. See the attached screenshot (shadow.png) to see it rendered.

What should happen is for all the letters / clusters of a string to be placed along the path, and the drop shadow rendered afterwards.

History

#1 - 2017-05-01 01:07 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

#2 - 2019-03-09 04:09 PM - Giovanni Manghi

- Resolution set to end of life

- Status changed from Open to Closed

End of life notice: QGIS 2.18 LTR
