

## QGIS Application - Feature request #13068

### In Contour extraction, check "Attribute name" by default

2015-07-03 06:20 AM - Marie Silvestre

<b>Description</b>  In the tool provided in Raster/Extraction/Contour, values of contour lines are not exported by default. The user must check the option "Attribute name". I think it's indispensable to export the values and I cannot see why the check-box is not checked by default! Also, the text besides says "If not provided, no elevation attribute is attached." . This tool is not only used to create contour lines from elevation data, I think the text should be more generic like: "If not provided, no attribute field containing the values is created." (But if the option is checked by default, maybe the text is no longer needed...)		

#### History

##### #1 - 2017-01-02 05:55 AM - Giovanni Manghi

- Category changed from GDAL Tools to Processing/GDAL

##### #2 - 2017-01-24 03:07 AM - Alexander Bruy

- Resolution set to wontfix

- Status changed from Open to Closed

According to the GDAL documentation [http://www.gdal.org/gdal\\_contour.html](http://www.gdal.org/gdal_contour.html) label text and behavior is correct. Please reopen if necessary.
