

QGIS Application - Bug report #13134

Qgis crash with large sqlitle

2015-07-21 06:32 AM - Hildermes jose Medeiros Filho

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Vectors	
Affected QGIS version:	2.8.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 21198
Description		
Im trying to edit rivers and roads vectors in sqlitle format, qgis 2.8 crashes. Same data in shapefile has no problems with edition and topology verification.		
Affected verions 2.8.0/2.8.1/2.8.2		
To work with sqlitle I'm using QGIS 2.2 or 2.4		
Splitting the files in 2 allows edition, but some times its crashes.

Does it still crashes on 2.10? Can you pleas attach (or link) the offending sqlite db? Can you confirm that on 2.2/2.4 you have no crashes?

#3 - 2015-07-31 11:17 AM - Hildermes jose Medeiros Filho

No, thank you it is working.

I'll ask my support team to upgrade it and see if works with postgresql too. Sorry, I cant send you the data without IBGE authorization.

Thanks you, again.

so on qgis 2.10 is ok, right?

#5 - 2015-07-31 12:22 PM - Hildermes jose Medeiros Filho

Yes, but I need that the TI sector to install it and test it.
for now it is solved.
Do you know why it was crashing?
