

## QGIS Application - Bug report #13145

### An error occurred when executing the query. The data provider said: no result buffer

2015-07-23 01:55 AM - baditaflorin -

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Data Provider/PostGIS	
<b>Affected QGIS version:</b>	2.10.0	<b>Regression?:</b> No
<b>Operating System:</b>	windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 21208
<b>Description</b>		
error when wanting to change a Postgis filtered output with another in Qgis 2.9		

#### History

##### #1 - 2015-07-23 04:32 AM - Jürgen Fischer

More output in the log? Can you come up with a reproducible example?

##### #2 - 2015-07-30 02:59 PM - Giovanni Manghi

- Category set to Data Provider/PostGIS

- Status changed from Open to Feedback

##### #3 - 2015-08-20 12:42 AM - baditaflorin -

Can confirm the same error on Qgis 2.10

How do I access the log? It's not intuitive and I cannot find it

##### #4 - 2015-08-20 12:54 AM - baditaflorin -

- File *advanced\_filter\_its\_working.PNG* added

Via Filter it's not working, but if I use the advanced Filter it is working.

##### #5 - 2015-08-20 12:57 AM - baditaflorin -

- File *anything\_i\_put.png* added

the bug affects the Query builder by default, does not matter what I write, it's a Postgis layer that you have loaded? Then you will get the

The data provider said:

No result buffer

Still cannot find from where to access the log

**#6 - 2015-08-20 01:06 AM - Jürgen Fischer**

*No result buffer*

*Still cannot find from where to access the log*

The grey bubble on the bottom right in the status bar (used to be a warning sign with notifications on new messages).

**#7 - 2015-08-20 01:08 AM - baditaflorin -**

Qgis 2.10 does not have a log file anymore, from what i have seen

Opened a new ticket here #13239

I will update on this topic using Qgis 2.8.2 , because that version it's not affected by this regression

**#8 - 2015-08-20 01:12 AM - baditaflorin -**

If you want to replicate

Step 1 : Load a Postgis layer

Step 2 : right click on the layer > click Filter

Step 3 : Write anything that you want and click Ok

**#9 - 2015-08-20 01:17 AM - Jürgen Fischer**

*Step 1 : Load a Postgis layer*

*Step 2 : right click on the layer > click Filter*

*Step 3 : Write anything that you want and click Ok*

Did you click on the bubble yet?

**#10 - 2015-08-20 01:18 AM - baditaflorin -**

- File *qgis\_2\_8\_2\_working.PNG* added

- Target version set to Version 2.10

Tested in Qgis 2.8.2 and it's working.

So it's a 2.9 / 2.10 error.

**#11 - 2015-08-20 02:38 AM - baditaflorin -**  
*- Target version deleted (Version 2.10)*

This seems to be fixed in Qgis 2.11 Master Build 16d7a06

**#12 - 2015-08-20 05:29 AM - Jürgen Fischer**  
*- Status changed from Feedback to Closed*  
*- Resolution set to fixed/implemented*
