QGIS Application - Bug report #1319
Default snap mode doesn't show up correctly in localized GUI

2008-09-17 12:44 PM - Maxim Dubinin

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	GUI		
Affected QGIS version:		**Regression?:**	No
Operating System:	Debian	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	11379

Description

In the localized QGIS (ru_RU), if you go to settings\\options\\digitizing\\snapping and select "to vertex" then hit ok and then reopen the same window and go to the same setting, it is not stored, listbox is empty. Trying to change it again - still not stored.

If locale is overriden by en_US, everything is ok.
