### Description

I have table inside a public schema of postgres database. And i did a connection to that database and load the table inside the public schema in QGIS 2.10.1. I changed the table to edit mode and tried deleting a record, but delete button was not highlighted. Image is attached below.

### History

**#1 - 2015-11-07 11:26 AM - Giovanni Manghi**

*- Target version deleted (Version 2.10)*

**#2 - 2015-11-08 04:58 AM - Jürgen Fischer**

*- Subject changed from Cant able to delete features of a table inside a public schema of postgre database to Unable to delete features of a table inside a public schema of postgres database*

**#3 - 2015-11-08 05:02 AM - Jürgen Fischer**

*- Status changed from Open to Feedback*

Check the editing capabilities of the layer in properties in the metadata tab of layer properties.  You're probably not allowed to "Delete features".

**#4 - 2015-12-19 04:06 PM - Giovanni Manghi**

*- Resolution set to worksforme*

*- Status changed from Feedback to Closed*

closing for lack of feedback.
