Crashes QGIS or corrupts data:	Copied to github as #: 11392

Description

From head, when doing *make install*, I get this error:

```
CMake Error at images/themes/default/cmake_install.cmake:36 (FILE):
file INSTALL cannot find file
"/home/gavin/work/qgis/qgis/images/themes/default/mActionPan.png" to
install.
Call Stack (most recent call first):
images/themes/cmake_install.cmake:37 (INCLUDE)
images/cmake_install.cmake:41 (INCLUDE)
cmake_install.cmake:56 (INCLUDE)
```

```
make: *** [install] Error 1
```

Perhaps someone forgot to add that file?
