

QGIS Application - Bug report #13320

Unable to set single band raster to pseudocolour

2015-09-03 04:09 AM - Edward Rollason

Status: Closed	
Priority: High	
Assignee:	
Category:	
Affected QGIS version: 2.10.1	Regression?: No
Operating System: OSX	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: duplicate
Crashes QGIS or corrupts data: No	Copied to github as #: 21376
Description	
<p>I am unable to change the colour of a single band raster image from single band grey to single band pseudocolour. Setting up the pseudocolour (set min/max, classify etc) works fine but clicking apply has no effect on the raster display. The same issue is being reported here as a mac only issue (but I can't find a corresponding issue report):</p> <p>https://www.reddit.com/r/gis/comments/3ezga9/qgis_2101_mac_10104_unable_to_stylize_raster_as/</p> <p>I have tested this error against .img, .tif and .asc files.</p> <p>QGIS 2.10.1 (Kygchaos install) Mac OSX Yosemite 10.10.4</p>
