

QGIS Application - Bug report #13364

Weird behaviour after merging 2 or more lines

2015-09-15 10:11 AM - Piotr Kania

Status: Closed	
Priority: Severe/Regression	
Assignee:	
Category: Digitising	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	Copied to github as #: 21416
Description	
Hi! When I select 2 or more lines (they "touch" each other with endpoints) and merge them with "Merge selected features" tool, I can't move together with Node Tool vertices that earlier were those endpoints - I can do that if I split this line with "Split Features Part(s)" - but I need that lines to be one single part feature as they stick with their endpoints etc.

Thanks - yes, that's the same, thanks for the info about "Join multiple lines" plugin - it's excellent workaround

#4 - 2015-10-12 02:28 PM - Nyal Dawson

- Status changed from Open to Feedback

Likely fixed with #13274, can you please retest and confirm?

#5 - 2015-10-12 02:43 PM - Piotr Kania

Yes - it's repaired and it works ok

#6 - 2015-10-13 04:36 PM - Jürgen Fischer
