

QGIS Application - Feature request #13386

ogr2ogr based tool to "dissolve polylines"

2015-09-21 02:12 AM - mattia oil

Status: Closed	
Priority: Normal	
Assignee: Giovanni Manghi	
Category: Processing/GDAL	
Pull Request or Patch supplied:	Resolution: fixed/implemented
Easy fix?: No	Copied to github as #: 21438
Description	
Starting from ogr2ogr based tool "Dissolve polygons", it could be useful to have a tool that can dissolve a linear vector layer and sum some attributes of choice.

Hi Bernhard,

I will add ogr/sql tools regardless of the work being done in native qgis tools, for several reasons: I like the flexibility of having GUI tools purely based on spatial SQL queries and because the tools already available have proven to be overall much quicker than the qgis/ftools counterparts. Cheers!

#4 - 2017-05-01 12:46 AM - Giovanni Manghi

- *Easy fix? set to No*

#5 - 2019-03-11 02:18 PM - Giovanni Manghi

- *Resolution set to fixed/implemented*

- *Status changed from Open to Closed*

ogr based dissolve now supports also lines.
