

QGIS Application - Bug report #13399

Unable to export image in Print Composer while Render as HTML box is checked

2015-09-22 05:38 PM - Josiah Wahlrab

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	2.8.2	Regression?: No
Operating System:	OSX	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 21451
Description		
<p>I'm unable to export any type of image (`png`, `pdf`, `svg`, etc.) via Print Composer while there is a Label that is set to <i>Render as HTML</i>. The normal <i>Choose a file name to save the map image as</i> appears for a spit second, but then disappears. The issue persists in both QGIS 2.8.2 and QGIS 2.10.1, both on OS X (10.10.4). If I <i>uncheck</i> the <i>Render as HTML</i> box, I'm able to export as an image format with no difficulty.</p>
