

QGIS Application - Bug report #13441

"ParameterExtent" wrong values in Processing

2015-09-28 01:42 AM - Giovanni Manghi

Status: Closed	
Priority: Severe/Regression	
Assignee: Victor Olaya	
Category: Processing/Core	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 21488

Description

I just noticed that in QGIS/Processing master and Processing 2.10.2, when using the batch mode, the "ParameterExtent" returns always (example) 0 1 1 0 when the it is left blank, until qgis 2.8.3 it works as expected returning the full extent of the input layer.
