### Description

Hi, our friend of gfoss's italy group Toto' Fiandaca report us an issue on Heatmap usage.
It issue a dump of software.

The following video show how trigger the issue.

The issue start when the user try to tematize a polygon vector using an heatmap.

Another strictly connected issue (so I don't open another ticket).

Is when an user try to tematize a puntual tematism using a "polygon inverted" rendering.

Regards.
