

QGIS Application - Feature request #13523

Provide an easy upgrade from GRASS 6 to GRASS 7

2015-10-05 10:56 PM - Paolo Cavallini

Status: Closed	
Priority: Normal

Category: GRASS	
Pull Request or Patch supplied:	Resolution: fixed/implemented
Easy fix?: No	Copied to github as #: 21567
Description	
GRASS 6 vectors have to be upgraded to be used in GRASS 7. I suggest to provide an easy tool to do that, or a hint for user about what to do.	
IMHO there are two main options, non exclusive:	
<ul style="list-style-type: none">- a contextual menu on the browser (this may only include v.build, the db switch must be made separately)- an additional command "Migrate grass vectors" which points to a simple script chaining the three commands described in https://grasswiki.osgeo.org/wiki/Convert_all_GRASS_6_vector_maps_to_GRASS_7	
I like the second option, perhaps adding a tooltip on the Browser "Please migrate vectors by using the `Migrate grass vectors` command"	

History

#1 - 2015-10-06 04:47 AM - Radim Blazek

qgis.v.upgrade.py was added in commit:484f94c.

#2 - 2015-10-13 03:44 AM - Paolo Cavallini

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Perfect, thanks.
