| <b>Description</b>   |                                     |
| <p>Hi,</p> <p>I have the below qgis server configuration:</p> <ol style="list-style-type: none"><li>1. Operating System and version: Ubuntu 14.04.3 LTS</li><li>2. QGIS version: 2.8.2</li><li>3. Apache web server 2</li></ol> <p>I have the below problem (It might be a bug in qgis wfs service):</p> <p>I have a qgis project with some layers on it. I have enabled WMS and WFS service for this qgis project on qgis server.</p> <p>When I request a WFS request (for GeoJSON response) for multiple layers it returns a GeoJSON response as requested. But that GeoJSON response has some missing ", ". Or it has missing ", " between features from multiple layers.</p> <p>For example, I have requested the below request and it has the above problem:</p> <p><a href="http://193.17.67.229/cgi-bin/externt/skola/?&amp;#38;service=WFS&amp;#38;request=GetFeature&amp;#38;bbox=194255.947401006%2C6215787.13507023%2C194933.14797865791%2C6216476.954568461&amp;#38;layers=omr_f6skola%2Comr_skola&amp;#38;styles=&amp;#38;typename=omr_f6skola%2Comr_f6skola%2Comr_skola&amp;#38;query_layers=omr_f6skola%2Comr_skola&amp;#38;info_format=application%2Fjson&amp;#38;feature_count=20&amp;#38;x=702&amp;#38;y=321&amp;#38;buffer=16&amp;#38;width=1040&amp;#38;height=1015&amp;#38;srs=EPSG%3A3008&amp;#38;exceptions=application%252Fvnd.o2Fvnd.ogc.se_xml&amp;#38;version=1.3.0&amp;#38;outputFormat=GeoJSON">http://193.17.67.229/cgi-bin/externt/skola/?&amp;#38;service=WFS&amp;#38;request=GetFeature&amp;#38;bbox=194255.947401006%2C6215787.13507023%2C194933.14797865791%2C6216476.954568461&amp;#38;layers=omr_f6skola%2Comr_skola&amp;#38;styles=&amp;#38;typename=omr_f6skola%2Comr_f6skola%2Comr_skola&amp;#38;query_layers=omr_f6skola%2Comr_skola&amp;#38;info_format=application%2Fjson&amp;#38;feature_count=20&amp;#38;x=702&amp;#38;y=321&amp;#38;buffer=16&amp;#38;width=1040&amp;#38;height=1015&amp;#38;srs=EPSG%3A3008&amp;#38;exceptions=application%252Fvnd.o2Fvnd.ogc.se_xml&amp;#38;version=1.3.0&amp;#38;outputFormat=GeoJSON</a></p> <p>I think it is a bug in qgis server wfs service.</p> <p>Any help will be appreciated.</p> <p>Thanks in advance.</p> <p>//Amin</p> |                                     |

## History

### #1 - 2015-10-20 12:25 AM - Richard Duivenvoorde

Hi, can you please retest with a current nightly?

Recently the georss related issue #10515 was fixed.

Not sure if this fixes yours, but plz try

### #2 - 2015-10-20 12:35 AM - Jürgen Fischer

I doubt that #10515 is related to this.

**#3 - 2016-01-17 02:11 AM - Marcel Dancak**

Hi, this bug is still present in master branch. I have created a pull request with one possible way to fix this bug - <https://github.com/qgis/QGIS/pull/2685>. It would be great if somebody from developers could look at it. Thanks.
