### Description

Making first letter in each word capital for any label only works if the text is in lower case.

Tested with point layer and three points (attribute: "Name")

To create Capitalized first letters you must use *title(Name)* in "Label with".

Attached image shows result from four settings for "Type Case" and a fix.

- Normal
- All lowercase
- All uppercase
- Capitalize first letter
- Fix with "expression" *title(Name)*

### History

#### #1 - 2015-10-10 04:28 AM - Nyal Dawson

- Resolution set to duplicate
- Status changed from Open to Closed

Duplicate of #7611
