

## QGIS Application - Bug report #13577

### Impossible to choose current date in form with date widget

2015-10-12 07:16 AM - Amelie Mesnard

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b> Denis Rouzaud	
<b>Category:</b> Forms	
<b>Affected QGIS version:</b> master	<b>Regression?:</b> No
<b>Operating System:</b>	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 21619
<b>Description</b>	
<p>Hello,</p> <p>I'm working with Qgis 2.8</p> <p>I define these options for a date field :</p> <ul style="list-style-type: none"><li>- editable</li><li>- format : date and time</li><li>- display : customized (dd/MM/yyyy), calendar and allow null values</li></ul> <p>And with these options, in editing mode, I can't choose directly the current date. I had to choose an another day and then come back to the current day.</p> <p>I don't think that is a normal behavior.</p> <p>Thanks.</p> <p>A. Mesnard</p>	

#### History

##### #1 - 2015-10-12 10:18 AM - Anita Graser

- Target version set to Future Release - Lower Priority
- Affected QGIS version changed from 2.8.1 to master

I can confirm this in 2.8.3 and master: the current date is highlighted when the calendar opens. Clicking on it does not write the date into the date field. Any other date can be selected just fine.

##### #2 - 2015-10-12 10:19 AM - Anita Graser

- Subject changed from Choose current date to Impossible to choose current date in form with date widget

##### #3 - 2017-05-01 01:06 AM - Giovanni Manghi

- Easy fix? set to No
- Regression? set to No

##### #4 - 2017-09-21 10:23 AM - Denis Rouzaud

- Assignee set to Denis Rouzaud
- Description updated

##### #5 - 2017-09-21 10:24 AM - Denis Rouzaud
