

QGIS Application - Bug report #13620

Cancelling Layer Properties Dialog does not cancel changes made in "Provider feature filter" section

2015-10-16 04:09 AM - Harrissou Santanna

<div>Status:Closed</div> <div>Priority:Normal</div> <div>Assignee:</div> <div>Category:</div> <div>Affected QGIS version:master</div> <div>Operating System:</div> <div>Pull Request or Patch supplied:</div> <div>Crashes QGIS or corrupts data:</div>	<div>Regression?:No</div> <div>Easy fix?:No</div> <div>Resolution:</div> <div>Copied to github as #: 21658</div>
<div>Description</div> <div>Open a layer Properties &gt; General tab</div> <div>write a formule in the Query builder and click "Test"</div> <div>The query instead of just being tested, is also applied in the map canvas. I'm not sure if this behaviour is good but why not, since it shows how layer will be.</div> <div>Now Click "OK" in the query builder dialog and click "CANCEL" in the Properties Dialog : your layer will be kept queried, despite you cancelled the process.</div> <div>Shouldn't all the not yet applied changes, made within the Layer Properties dialog, be reversed when user hits Cancel button?</div> <div>Occured since QGIS 2.4 at least</div>
