QGIS Application - Bug report #13620
Cancelling Layer Properties Dialog does not cancel changes made in "Provider feature filter" section

2015-10-16 04:09 AM - Harrissou Santanna

Status:	Closed			
Priority:	Normal

Crashes QGIS or corrupts data:		**Copied to github as #:**	21658	

Description

Open a layer Properties > General tab
write a formule in the Query builder and click "Test"
The query instead of just being tested, is also applied in the map canvas. I'm not sure if this behaviour is good but why not, since it shows how layer will be.
Now Click "OK" in the query builder dialog and click "CANCEL" in the Properties Dialog : your layer will be kept queried, despite you cancelled the process.

Shouldn't all the not yet applied changes, made within the Layer Properties dialog, be reversed when user hits Cancel button?

Occured since QGIS 2.4 at least
