<b>Description</b>		
Hi! win7sp1x64, qgis-dev rev. commit:ea0ce4e  Each time I save edits those unnecessary log message appears in the top of the screen:  Invalid result: Could not store value 'nextval('linie_gid_seq'::regclass)' in field of type int4  I must turn it off manually each time as it doesn't disappear by itself.		

#### History

##### #1 - 2015-10-22 01:21 AM - Piotr Kania

That doesn't happen in qgis-dev rev. commit:4cdf05f

##### #2 - 2015-10-22 01:36 AM - Jürgen Fischer

Doesn't happen here. Please add steps to reproduce.

##### #3 - 2015-10-22 02:00 AM - Piotr Kania

I start edition, create one new feature, select 2 features in layer, than I merge them- everything is saved but those message appears each time.

It could be better if those message just appear in log messages panel.

Here is video- downloed and watch on your computer as dropbox reduces resolution in their player:

- Category set to Digitising
- Status changed from Open to Feedback

I also cannot confirm on the latest master on both Linux and Windows.

**#5 - 2015-12-19 10:41 AM - Giovanni Manghi**

- *Resolution set to worksforme*

- *Status changed from Feedback to Closed*

closing for lack of feedback.
