

QGIS Application - Bug report #13656

LIKE is not case sensitive when Query Builder is accessed from Layer > shapefile > Filter... (QGIS, v10, Windows7)

2015-10-22 11:33 AM - Michael Shin

Status: Closed	
Priority: Normal	
Assignee:	
Category:	
Affected QGIS version: 2.10.0	Regression?: No
Operating System: Windows 7	Easy fix?: No
Pull Request or Patch supplied:	Resolution: duplicate
Crashes QGIS or corrupts data:	Copied to github as #: 21691
Description	
<p>When using the Query Builder accessed via 'LAYER > right/CTRL-click SHAPEFILE layer > FILTER...' with wildcards (i.e, %) the operator LIKE (case-sensitive) performs identically to ILIKE (NOT case sensitive).</p> <p>For example, consider a field called NAME that contains the following ('California', 'New Mexico', 'Michigan').</p> <p>When accessed via Filter..., the query: "NAME LIKE '%c%' returns all three of the above, but the same query performed via 'Select by Expression' and 'Advanced Filter' returns (correctly, I think) only 'New Mexico' and 'Michigan'. This behavior has been replicated on different shapefiles.</p>
