

QGIS Application - Feature request #13672

Field calculator output preview should use selected type

2015-10-25 10:17 AM - Johannes Kroeger

Pull Request or Patch supplied:	Resolution:
Easy fix?: No	Copied to github as #: 21706
Description	
<p>The Field Calculator's "Output preview" should show the same format as using the currently selected "Output field type" would result in.</p> <p>For example if "Output field type" is set to "Whole number (integer)" it should display a "7", not a "7.123456".</p> <p>This would at least me make less accidental integer columns when I wanted decimals.</p>
