Easy fix?:	No	**Copied to github as #:**	21713

Description

Integrate Metadata-Editor supporting FGDC, ISO19115, ISO19139 (INSPIRE Comp.,...).
Available PlugIns like MetaTools or QSphere seem to be quite unstable at the moment (not running on different QGIS-installations at the moment).
Metadata-editing would be a usefull out-of-the-box feature.

History

- Easy fix? set to No

#2 - 2017-05-06 11:21 PM - Regis Haubourg

- Category set to Metadata

- Description updated

Please see current work in progress here.[[https://github.com/qgis/QGIS-Enhancement-Proposals/issues/91]]

I think supporting them is more than welcome if you want full ISO / FDGC covered.
