QGIS Application - Bug report #13706
Not working grass plugin in QGis Lyon for osx - file browser-
2015-10-29 05:23 AM - Mattia Fiorini

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	GRASS			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	worksforme	
Crashes QGIS or corrupts data:		**Copied to github as #:**	21733	

Description

In the previous versions of Qgis I was able, once opened a grass mapset, to view and load files from grass location.

Both in Qgis Pisa and Qgis Lyon it is no more possible, simply I can't find the menu of Grass plugin, where all the files present in grass location was listed.

???
