

QGIS Application - Bug report #13727

Simple Marker Data Defined Anchor Point

2015-11-01 09:28 PM - Michael Knopp

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:		
Affected QGIS version:	2.8.1	Regression?: No
Operating System:	Mac OSX	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 21754
Description		
<p>I am trying to use data definition to define a cliff hashmark.</p> <p>I have created a style for the line with a simple marker and plan to use the vertical anchor point offset to move the marker to the proper side of the line.</p> <p>I have created a string field with a width of 10 and enter "bottom" or "top" into the field. After creating the line the hashmarks are displayed correctly. However, as soon as I save the shapefile it defaults back to a centered anchor point.</p> <p>I have tried changing the table and saving. I have quit QGIS and restarted. It is like it doesn't read from the shapefile correctly.</p>

To confirm, is the data getting saved correctly into the shapefile (eg browsing the table shows your entered anchor values), or is the data definition getting lost when saving the project?

#2 - 2015-11-02 10:19 AM - Michael Knopp

Yes, the data is getting saved to the shapefile. If I open the table the data is shown exactly as entered.

Also, I have tried this on a Windows 7 SP 1 machine also running QGIS 2.8.1 and the behavior is exactly the same.

#3 - 2015-11-03 12:32 AM - Nyall Dawson

I can't reproduce. Can you share a small project/sample data which shows this issue?

#4 - 2015-11-03 07:09 AM - Michael Knopp

- File Hachure_Test.zip added
- File Installed_Plugins.png added

Sure. I just created a very small topo with a cut. Using only these two small shapefiles it is still doing it on my systems.

I also am including a screenshot of my installed plugins. Just in case it is some conflict with one of them.

Thanks.

#5 - 2015-11-03 12:40 PM - Nyall Dawson

- Resolution set to fixed/implemented
- Status changed from Feedback to Closed

Ok, this issue was already fixed in 2.8.2. I've tested your project with 2.8.3 and it works fine.
