QGIS Application - Bug report #13758
Attribute Table, Clipboard

2015-11-04 07:57 AM - Gerd Dreier

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Attribute table			
Affected QGIS version:	2.12.0	**Regression?:**	No	
Operating System:	Windows	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	worksforme	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	21785	

Description

I have a Attribute Table with some Joins. If I copy the Attribute Table to the Clipboard and Import it to Excel or any other program, only the join number is insert to Excel and not the shown text form the Attribute Table.

It is not really a Error, but it will be better, if it is possible to switch between "Insert with Joins" or "Insert with the connected text"

What do you mean with "join number"?

I created joins, copied/pasted (to libreoffice) the resulting table of attributes and seems ok.
