

QGIS Application - Feature request #13764

Let Processing command filter search not only in translation, but also on original command name

2015-11-05 07:46 AM - Paolo Cavallini

Status: Closed	
Priority: Normal	
Assignee: Victor Olaya	
Category: Processing/GUI	
Pull Request or Patch Supplied:	Resolution:
Easy fix?: No	Copied to github as #: 21790
Description	
<p>When it comes to Processing, many users prefer to call the command with the original English name (e.g. buffer has often weird translations in many languages). Currently, if the name of commands is only partly translated, the users get stuck, finding only a part of the commands.</p>
