

QGIS Application - Feature request #13767

Add line button for print composer

2015-11-06 12:51 AM - Anita Graser

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Pull Request or Patch supplied:		Resolution: fixed/implemented
Easy fix?:	No	Copied to github as #: 21793
Description		
<p>Currently, we only have a button to add an arrow. The user can remove the arrow head to get a simple line. This seems the wrong way around in terms of UX. The default should be a simple line with the option to add an arrow head if needed. See discussion in <a href="http://osgeo-org.1560.x6.nabble.com/Print-Composer-quot-arrow-quot-item-t5195529.html">http://osgeo-org.1560.x6.nabble.com/Print-Composer-quot-arrow-quot-item-t5195529.html</a></p>

I totally agree. I proposed this many years ago - but there was no-one ever worked on it or financed this improvement.

Maybe we can include this in our next round of bug fixing - or Nyall can change it in the print composer redesign.
