

QGIS Application - Feature request #13879

Add a classification field based on current style rules

2015-11-25 04:33 AM - Paolo Cavallini

Status:	Open	Resolution: Copied to github as #: 21902
Priority:	Normal	
Assignee:		
Category:	Processing/QGIS	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
It would be useful to develop a command to automatically add to the attribute table a new column with the result (name or code) from a set of classification rules, to have them stable in the DB.

- Easy fix? set to No

#2 - 2018-03-06 06:17 PM - Paolo Cavallini

- Category changed from Attribute table to Processing/QGIS

Still missing in QGIS 3. Seems an useful alg to add to Processing, so I'm changing category.
