

QGIS Application - Bug report #13885

Rephrase the option "Select at ID" and make it easier to find

2015-11-26 07:53 AM - Paolo Cavallini

| Affected QGIS version: | 3.0.0 | Regression?: No |
| Operating System: | | Easy fix?: No |
| Pull Request or Patch supplied: | No | Resolution: |
| Crashes QGIS or corrupts data: | No | Copied to github as #: 21907 |
| Description | | |
| <p>The "Select at id" option in loading PostGIS layers doesn't really tell the user much. It would be better to rephrase it in something like "Cache locally".</p> <p>BTW, the option is rather hidden, and not available when (as it happens more and more often) the layer is loaded through the Browser. Probably we should make it available there.</p> | | |

History
