QGIS Application - Feature request #13894
Export GeoTIFFs instead of TIFFs

2015-11-29 02:06 AM - Arun Ganesh

Status:	Feedback		
Priority:	Normal

Category:	Map Composer/Printing		
Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:** 21916	

Description

I exported a TIFF from the composer later found out I cant import it back into Qgis as it is not a GeoTIFF. Also Qgis does not read the world file which

The default output should just be a GeoTIFF for ease of use.

- Easy fix? set to No

#2 - 2017-05-06 11:17 PM - Regis Haubourg

- Status changed from Open to Feedback

- Category set to Map Composer/Printing

- Description updated

Are you sure you exported TIFF from the composer? I couldn't find it in export file list...

With png, the world file is well used by QGIS when importing it in a map
