

QGIS Application - Feature request #13898
finishing data entry by pressing Enter key (UI form)

2015-11-29 07:41 AM - Thomas Nogatz

Status:	Open	Resolution: Copied to github as #: 21920
Priority:	Normal	
Assignee:		
Category:	Unknown	
Pull Request or Patch supplied:	Yes	
Easy fix?:	No	
Description		
Let's assume we have a shapefile, have created a new feature and have entered data into an UI form (with cancel/OK buttons). Now we want to finish the data entry. The only way is to klick the OK button. If I press the enter key all new entered data will be lost. This is a problem of UI forms only. Automatically generated forms work well.
