| Easy fix?: No | Copied to github as #: 21920 |
| Description | |
| <p>Let's assume we have a shapefile, have created a new feature and have entered data into an UI form (with cancel/OK buttons). Now we want to finish the data entry. The only way is to klick the OK button. If I press the enter key all new entered data will be lost. This is a problem of UI forms only. Automatically generated forms work well.</p> | |
