

QGIS Application - Bug report #13917

Names of Print layout items not reused

2015-11-30 09:05 AM - Paolo Cavallini

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	2.8.3	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 21939
Description		
Names of items in Print layout (e.g. Map0, Map1, etc.) can be changed, but menus use the original names, not the user aliases. I think this is confusing, and makes aliases of little use.		

History

#1 - 2017-05-01 01:06 AM - Giovanni Manghi

- *Easy fix? set to No*
- *Regression? set to No*

#2 - 2018-03-07 05:07 PM - Paolo Cavallini

- *Resolution set to fixed/implemented*
- *Status changed from Open to Closed*

Fixed in QGIS 3.
