

## QGIS Application - Feature request #14046

### Exporting symbol from Style Manager : add a checkbox near each symbol to easier multiple selection

2015-12-31 08:21 AM - Harrissou Santanna

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b>	
<b>Category:</b> Symbology	
<b>Pull Request or Patch applied:</b>	<b>Resolution:</b> wontfix
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 22057
<b>Description</b>	
<p>When trying to export symbols from the Style Manager, you have a dialog with all available symbols. You then need to select the symbols, holding Ctrl or shift key.</p> <p>It may be nice to have a dialog with a checkbox associated to each feature to allow multi selection without a need to hold a key. See how is the dialog when you want to group symbols in a group.</p> <p>It may however be interesting to extend the properties of this widget to allow Ctrl, Shift or click'n-drag to still select many symbols at once (see #14045)</p>	

#### History

##### #1 - 2017-05-01 12:46 AM - Giovanni Manghi

- Easy fix? set to No

##### #2 - 2017-05-06 11:15 PM - Regis Haubourg

- Priority changed from Normal to Low

- Category set to Symbology

- Description updated

Not sure I get your point with the checkboxes and ctrl - shift hold behavior. Can you check in QGIS master if you're happy with it?

I believe that checkboxes are not really good for friendly UX, and the selection process works fine for me

##### #3 - 2017-05-24 05:03 PM - Harrissou Santanna

- Resolution set to wontfix

- Status changed from Open to Closed
