

QGIS Application - Feature request #14068

Composer: Identify if a preset is used to lock a map Item layers

2016-01-07 04:07 AM - Harrissou Santanna

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Pull Request or Patch supplied:		Resolution:
Easy fix?:	No	Copied to github as #: 22078
Description		
<p>When the data defined override option is used on a setting, its icon takes another shape.</p> <p>In Print composer, map Item > Lock layers for map Item (and maybe elsewhere I'm not aware of), it could be nice to have the same behaviour for the preset icon.</p> <p>This will help to quickly identify if a map has preset locked or not, and, not the least, until #13418 is fixed, identify map items where this setting is broken</p>
