QGIS Application - Feature request #1413
Add multi-layer selection in the legend

2008-11-18 05:34 PM - nikos -

Status:	Closed			
Priority:	Low			
Assignee:	nobody -			
Category:	Map Legend			
Pull Request or Patch supplied:			**Resolution:**	duplicate
Easy fix?:	No		**Copied to github as #:**	11473

Description

Selecting multiple layers at the same time (using the mouse pointer with the Shift or Control keys OR using wildcard patterns) will alow for easy creation of groups consisting of many layers that are loaded in the legend.

This is actually a "reminder" ticket related with this thread of the QGIS-user mailing list:

http://www.nabble.com/Select-several-layers-at-once--td20492353.html

Thank you, Nikos

+1
Really need this feature

#4 - 2009-11-30 01:25 PM - Giovanni Manghi

- Resolution set to duplicate

- Status changed from Open to Closed

I have made a few changes in #783 so we can close this as duplicate. Please continue the discussion for multiple layer selection in the legend there.
