QGIS Application - Feature request #14141
Keep SVG as vectors

2016-01-19 05:20 AM - Georg Weickelt

Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	22143

Description

It is possible to use the svg-format as wms data source . Geoserver for example sends SVG data. These appear to be converted to raster data if you export a PDF file from the composer. This leads to large PDF files. The vector property of the SVG source should be retained.
